

# CIPC Draft Priority Species and Categories

**PREVENT** - Species not known to occur in region, but likely to establish if introduced. Eradicate if found.

Common Crupina *Crupina vulgaris*  
Cordgrass, Salt-meadow *Spartina alterniflora*  
Common Reed *Phragmites australis*  
Giant Reed *Arundo donax*  
Kudzu *Pueraria Montana*  
Russian Knapweed *Acroptilon repens*  
Yellow Starthistle *Centaurea solstitialis*

**ERADICATE** - Species known to occur in limited distribution and low density. Eradicate if found.

Bur Chervil *Anthriscus caucalis*  
Cordgrass, English *Spartina anglica*  
Cordgrass, Dense-flowered *Spartina densiflora*  
Cordgrass, Saltwater *Spartina patens*  
Garlic Mustard *Alliaria petiolata*  
Giant Hogweed *Heracleum mantegazzianum*<sup>T</sup>  
Giant Mannagrass *Glyceria maxima*  
Jimsonweed/Devil's Apple *Datura stramonium*<sup>T</sup>  
Milk Thistle *Silybum marianum*  
Orange Hawkweed *Hieracium aurantiacum*  
Wild Chervil *Anthriscus sylvestris*

**CONTAIN** - Established infestations found in portions of the region. Contain existing infestations and prevent spread to un-infested areas.

Butterfly Bush *Buddleja davidii*  
Carpet Burweed *Soliva sessilis*  
Daphne/Spurge-Laurel *Daphne laureola*<sup>T</sup>  
Diffuse Knapweed *Centaurea diffusa*  
Eurasian Water-milfoil *Myriophyllum spicatum*  
Garden (Yellow) Loosestrife *Lysimachia vulgaris*  
Gorse *Ulex europaeus*  
Knotweed, Bohemian *Fallopia x bohemica*  
Knotweed, Giant *Fallopia sachalinensis*  
Knotweed, Himalayan *Polygonum polystachum*  
Knotweed, Japanese *Fallopia japonica*  
Policemans Helmet/Himalayan Balsam *Impatiens glandulifera*  
Yellow Flag Iris *Iris pseudacorus*

**CONTROL**– Established infestations common and widespread throughout the CIPC region. Focus control in high value conservation areas. Use biological control<sup>B</sup>, if available, on a landscape scale.

Burdock Species *Arctium spp.*  
Canada Thistle *Cirsium arvense*<sup>B</sup>  
Common Tansy *Tanacetum vulgare*  
Dalmatian Toadflax *Linaria dalmaticab*<sup>B</sup>  
English Holly *Ilex aquifolium*  
English Ivy *Hedera helix*  
Hairy Cat's Ear *Hypochaeris radicata*  
Himalayan Blackberry *Rubus armeniacus (discolor)*  
Periwinkle Species *Vinca spp.*  
Orchardgrass *Dactylis glomerata*  
Purple Loosestrife *Lythrum salicaria*<sup>B</sup>  
Scotch Broom *Cytisus scoparius*  
Spotted Knapweed *Centaurea maculosa*<sup>B</sup>  
St. John's Wort *Hypericum perforatum*<sup>B</sup>  
Tansy Ragwort *Senecio jacobaea*<sup>B</sup>

**Supplemental Notes:**

- The above lists are a merely starting point for public consultations; Feedback is encouraged.
- The above lists reflect the entire CIPC area. The placement of a species into a category at the landscape level is very likely to be different from a placement of a species into a category at the local level.
- <sup>B</sup>Invasive plants with biological control agents available
- <sup>T</sup>Invasive plants which pose potential human health and safety hazards
